The screenshot shows the COCA website interface. The top navigation bar includes 'SEARCH', 'CHART', 'CONTEXT', and 'OVERVIEW'. The 'SEARCH' tab is active, showing a search box with 'narendra modi' and a '[POS]' dropdown. Below the search box are buttons for 'See frequency by section' and 'Reset'. A sidebar on the left contains links for 'List', 'Chart', 'Collocates', 'Compare', and 'KWIC'. The main content area displays a 'CHART display' section with a 'HIDE HELP' button. The chart shows the frequency of 'narendra modi' across different sections and time periods. The table below the chart provides the following data:
